

# Oxford tiered benefit solutions – designed for cost savings.

Oxford<sup>1</sup> Connecticut Liberty Network plans now include a tiered network structure for Primary Care Physician (PCP) and specialist care.<sup>2</sup> This tiered benefit design may help employers save on medical premiums and members save with low-cost Tier 1 copayments. While members can choose from any provider in the Liberty network, seeking care from high-value Tier 1 physicians will result in lower out-of-pocket costs.

Members are required to choose a PCP. This PCP can help coordinate care and refer members to a specialist, when needed. Members may select a PCP from our Tier 1 network.
