

A plan that helps your employees save money on their health care costs

UnitedHealthcare SignatureValue[®] health plan is an HMO plan that provides access to care and helps protect members from major health care costs.

Convenience, access and savings. Just what your employees want.

Here are just a few of the benefits of the SignatureValue plan:

- Members pick a primary care physician (PCP) from the Alliance network, who will act as a guide through the health care system and help coordinate additional care. When members need to see a specialist, their PCP will provide a referral.
- Preventive¹ and emergency care services are covered at 100 percent,² including emergency care from out-of-network hospitals.
- The SignatureValue plan is designed to be a cost-effective and simple way to get care. Pre-set copayments and other fees help members control their own health care costs and avoid surprises.

SignatureValue's HMO network features:

62,590

physicians and health care professionals.³

273 hospitals.³

¹ Certain preventive care services are provided as specified by the Patient Protection and Affordable Care Act (ACA), with no cost-sharing to you. These services are based on your age, gender and other health factors. UnitedHealthcare also covers other routine services that may require a copay, coinsurance or deductible.

² As long as services are received in the health plan's network.

³ As of October 2020.

Health plan coverage provided by or through UnitedHealthcare Insurance Company, UHC of California and UnitedHealthcare Benefits Plan of California. Administrative services provided by United HealthCare Services, Inc., OptumRx or OptumHealth Care Solutions, Inc. Behavioral health products are provided by U.S. Behavioral Health Plan, California (USBHPC).
