

A health plan that combines simplicity and savings.

Primary Advantage® is designed to help make health care and cost decisions simpler and easier to understand for you and your employees.

Encouraging proactive health checks and screenings.

This health plan emphasizes primary care with a doctor. Services with a primary care physician (PCP) that previously required a copay, as well as preventive care visits, are now covered at 100%.

Health care, made simpler.

Incentives to use PCPs may result in fewer emergency room visits, less need for specialty care and greater awareness of how important preventive health services can be.

Empowering employees to manage their own health.

Members can visit myuhc.com® or download the UnitedHealthcare® app to find doctors, estimate the cost of care before visits, manage claims, access health plan ID cards and more. With Primary Advantage, employees also have access to Virtual Visits, giving them convenient access to a doctor—whenever and wherever care is needed—with zero dollar copays.
