4 Plan deductible is waived for Emergency Room visits on plans where a copayment or copayment plus coinsurance are listed.

5 “Embedded” deductible means once an individual meets his or her portion of the deductible, services are paid for that person without the entire family deductible being met. “Non-Embedded” deductible means no covered family member will satisfy an individual deductible until the entire family deductible is met.

6 “Flexpoint” plans feature a copayment for office visits one through four during the calendar year or plan year, depending on plan type selected. Office visits five and over will be subject to plan deductible/coinsurance. This is a separate limit for both Physician Office visits and Urgent Care visits. Plans feature one Preventive Care visit per year, which does not count against the office visit copayment limit.

7 “Flex Free” plans feature a copayment for office visits one through three during the calendar year or plan year, depending on plan type selected. Office visits four and over will be subject to plan deductible/coinsurance. This is a separate limit for both Physician Office visits and Urgent Care visits (two visits). Plans feature one Preventive Care visit per year, which does not count against the office visit copayment limit.

9 Copayments on HSA plans will be required after the deductible has been met and will continue to be required until the annual out-of-pocket maximum is met.

10 Copayments for Inpatient Hospital admissions and Outpatient Facility services are prior to and in addition to any required deductible and coinsurance.

11 EPO plans exclude coverage for services provided by Out-of-Network Providers with the exceptions of 1) Services performed in a Network Facility by hospital-based providers; and 2) Services performed under the Emergency Care benefit.
