

State of New York Health Care Reform Act— Public Goods Pool

The New York Health Care Reform Act (NYHCRA) imposes certain surcharges and assessments on a variety of health care physician/other health care professional services received in New York State by a covered member. The surcharges and assessments collected are used to finance bad debt, graduate medical education (GME) and a variety of other health care initiatives.

Election overview.

All self-funded groups are impacted by the NYHCRA surcharges and assessments, regardless of where the group's office or headquarters is located. If a covered member receives a health care service in the state of New York, and the health care service is one that is subject to the surcharge, then the surcharge is added to the claim cost. The actual surcharge percentage applied to affected claims depends on the group's election status. In addition, electing customers also must pay a covered lives assessment for each covered member residing in the state of New York.

Once the group has elected into the NYHCRA Public Goods Pool, the covered lives assessment will be paid by United HealthCare Services, Inc.

Forms.

If you want to be an Electing customer but have not yet made your election, then you must complete forms DOH-4399 ("Payer Election Application") and DOH-4264 ("Electronic Filing User ID Application").

If you have already filed an Election, but have changed third-party administrators, then you need only complete DOH-4403 ("Third-Party Administrator or Administrative Services Only Status Change"). If you elect not to participate, complete All Savers Alternate Funding Non-Participation Election Form — New York Public Goods Pool.

Electing customers designate United HealthCare Services, Inc. to remit all surcharges and assessments directly to the state of New York on their behalf with reimbursement through claim processing and the covered lives assessment. The covered lives assessment is based on the number of employees who are New York State residents on the group's membership.

Non-electing customers pay higher surcharge rates, which are then included in a provider's claim reimbursement. The provider is then responsible to pay the surcharge. The surcharge for a non-electing customer can be as high as 60 percent of the cost of the claim.

Frequently asked questions.

Q: Does the New York Health Care Reform Act impact my All Savers Alternate Funding plan?
