

## A vision plan that's more than an exam and eyewear benefit.

We provide numerous valuable plan features and network choices for employees.

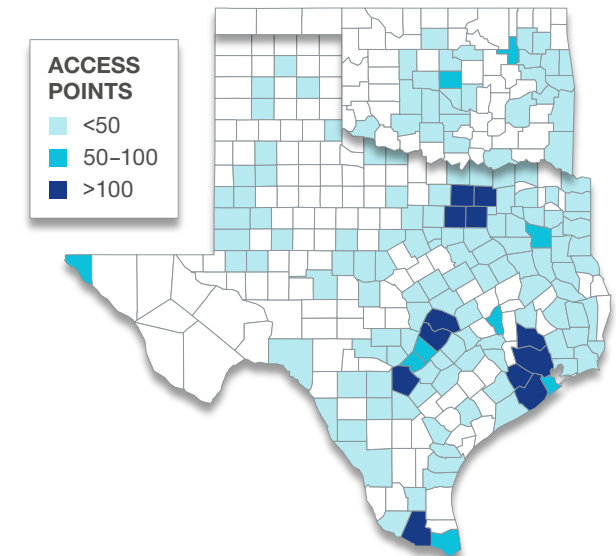

### Enhanced maternity and pediatric benefits.

Vision changes during pregnancy and throughout a child's school years are common, so we've added more coverage without adding more cost.

Two eye exams are covered each plan year for mothers-to-be and children up to age 13. If their prescription changes 0.5 diopter or more, a new pair of eyeglasses are also covered. Copays apply.
